¹This spend statistic is an aggregate of the average spend as reported by consumers in surveys commissioned by American Express reporting spend habits on Small Business Saturday of consumers who were aware of the day. It does not reflect actual receipts or sales. Each such survey was conducted among a nationally representative sample of U.S. adults. The surveys had an overall margin of error of between +/- 2.0% and +/- 5.47%, at the 95% level of confidence. The data was projected from the samples based on then-current U.S. Census estimates of the U.S. adult population (18+).

²The 2018 Small Business Economic Impact Study was conducted by Econsult Solutions, Inc. (ESI) on behalf of American Express. ESI calculated the share of national Gross Domestic Product (GDP), employment and employee compensation that small businesses with under 100 employees provide to the economy based on an analysis used by the U.S. Small Business Administration. ESI also estimated how much of each dollar spent at the average small business remains in their local community, and used input-output analysis across 100 representative U.S. counties to calculate the additional impact that is generated locally as the result of the spending of employees and the spending of the small business with local suppliers and service providers.
